2012

Measuring quality of museum activities

More information on

www.egmus.eu

EGMUS provides statistics structured by country and year on the topics such as:

- Number of museums
- Type of museums (art, science, etc.)
- Number of visits (including % of free admissions)
- Number of temporary exhibitions
- Number of paid and voluntary staff
- Type of ownership (state, local, regional or private owned)
- Income (% of income from entry fees and from public subsidies)
- Number of museums proposing education programs
- Museums with own website

Museum definition

by International Council of Museums (ICOM):

a non-commercial, permanent institution in the service of society and of its development, and open to the public, which acquires, conserves, researches, communicates and exhibits, for purposes of study, education and enjoyment, material evidence of man and his environment.

EGMUS

European Group on Museum Statistics

EGMUS is the European group established in 2002, which collects, compiles and publishes annual data and metadata on museums.

EGMUS contributed to the development of ISO Standard ISO 18461 and supports the work on ISO/CD 21246.

EGMUS promotes the harmonisation of museums statistics, recently in collaboration with Eurostat.
